CALCIUM SILICATE BOARD

Produced chiefly from inorganic compound and organic fibers, subjected to high-temperature, high-pressure treatment. This is a completely incombustible, ECO-friendly building material. The material is stable, fire-resistant, moisture-resistant, soundproof and heat-insulation. It is applicable in all kind of indoor space.

-  FIRE-RESISTANT
-  MOISTURE-RESISTANT
-  SOUNDPROOF
-  HEAT-INSULATION
-  ECO-FRIENDLY

【 TECHNICAL DATA 】

PRODUCT SPECIFICATION :	4.0mm*603mm*603mm
APPARENT DENSITY :	1.10±10%
BENDING STRENGTH :	above 13.0 MPa
THERMAL CONDUCTIVITY :	below 0.24 W/m • K
LINEAR EXPANSION :	below 0.15%

(Can be manufactured with special specification)
